0 25 50 100
Miles

An establishment is a single physical location at which business is conducted or services or industrial operations are performed. It is not necessarily identical with a company or enterprise, which may consist of one or more establishments.

The series excludes data on self-employed individuals, employees of private households, railroad employees, agricultural production employees, and most government employees.

Employers without a fixed location within a state (or of unknown county location) are included under a "statewide" classification. This incomplete detail causes a slight understatement of county employment. In Montana this number is 93.
