# A Review of Census Geography

# Standard Hierarchy of Census Geographic Entities

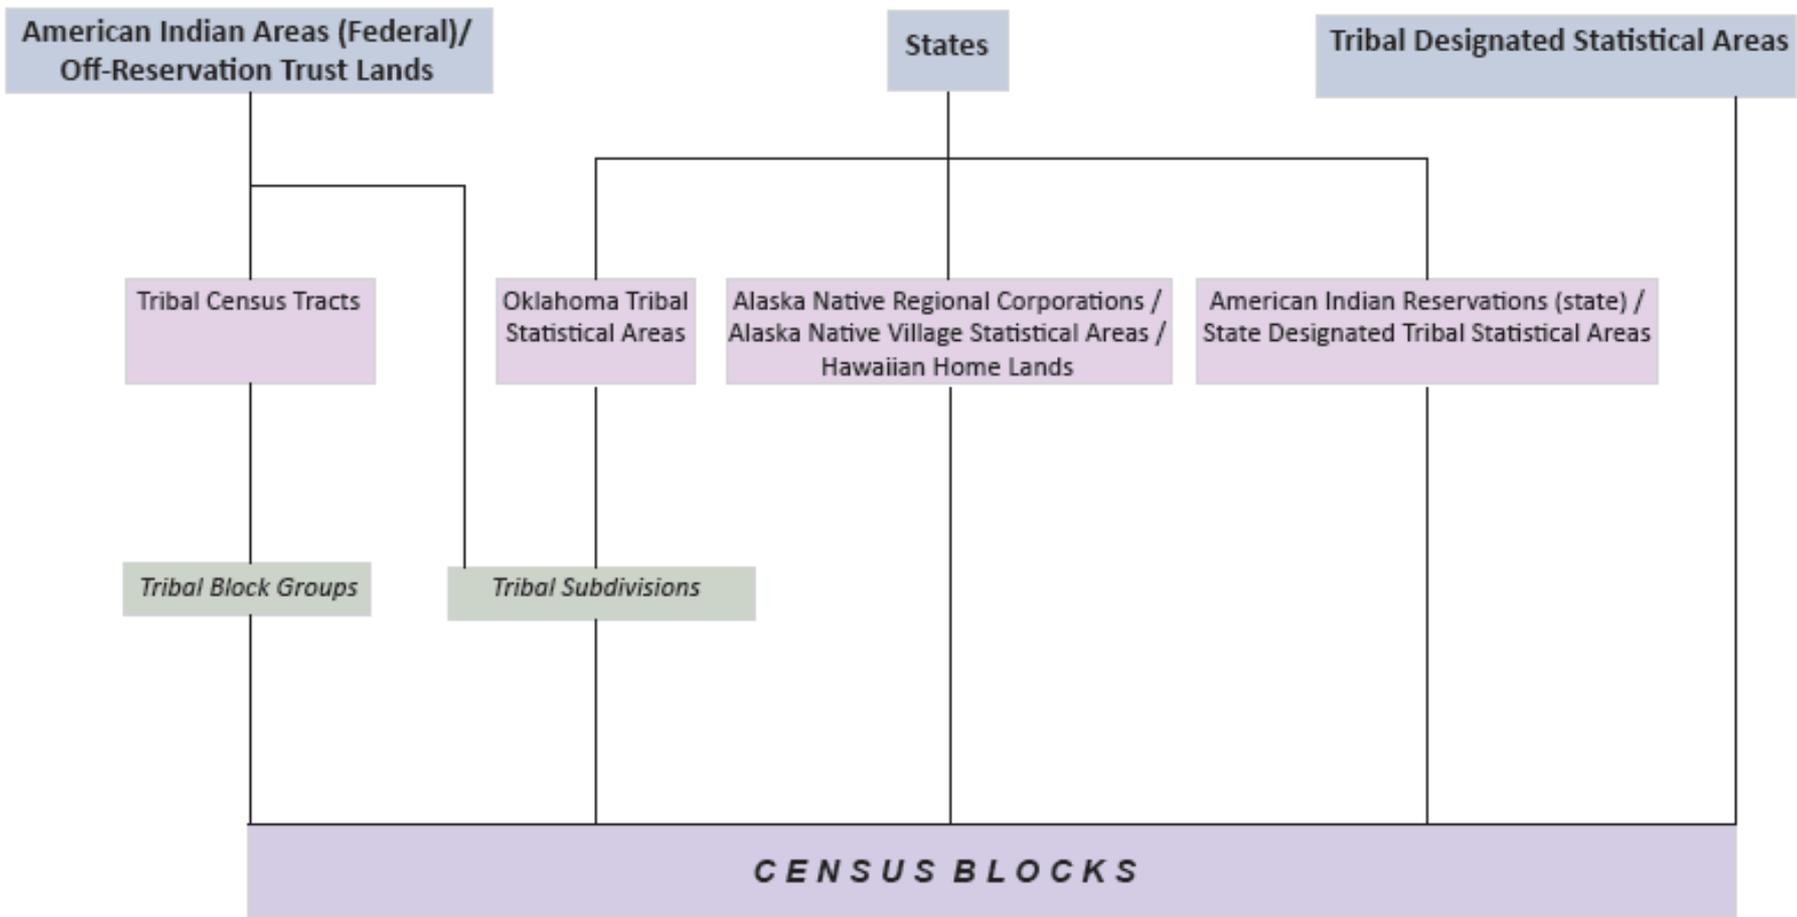

## Census Small-Area Geography

1. **Census Tracts** are small, relatively permanent statistical subdivisions and generally have a population of 1,500 to 8,000 (optimum **4,000**).
2. **Block Groups** are subdivisions of a census tract and generally have a population of 300 to 4,000 (optimum **1,500**).

## Hierarchy of American Indian, Alaska Native, and Native Hawaiian Areas

# Update to Geographic Boundaries

7

## IMPORTANT POINT!

Make sure you know to which year the geographic boundaries are tied

**Legally Defined Geographic Areas:** These are boundary changes submitted through the annual Boundary Annexation Survey (BAS) from the official source for the geographic area – Example a County Clerk submitting a boundary changes for the legal governments (incorporated places and minor civil divisions) within the County

**Statistical Areas:** boundary changes are mostly associated with updates from each Decennial Census and don't have a local legal tie – Example a Census Tract or Block

NOTE: Multi-year series are adjusted for new boundaries. For example, the 2015 ACS 5-year estimates (2011-2015) released in 2016 will be re-tabulated for the new boundaries for ALL years covered. This will be the first series to use the state legislative geographic boundaries that were approved in 2013 by the redistricting committee.

# Compiled 2010 Census Questions

14

1. **How many people were living or staying in this house, apartment, or mobile home on April 1, 2010?**
2. **Were there any additional people staying here April 1, 2010 that you did not include in Question 1?**
3. **Is this house, apartment, or mobile home: owned with mortgage, owned without mortgage, rented, occupied without rent?** Asked since 1890. Homeownership rates serve as an indicator of the nation's economy.
4. **Please provide information for each person living here. What is Person 1's sex? What is Person 1's age and Date of Birth?** Asked since 1800.
5. **Is Person 1 of Hispanic, Latino or Spanish origin?** Asked since 1970.
6. **What is Person 1's race?** Asked since 1790. Race is key to implementing many federal laws and is needed to monitor compliance with the Voting Rights Act and the Civil Rights Act.

Remember: **All responses given to the Census Bureau are confidential** and no individual data is ever shared. All Census Bureau employees take the oath of nondisclosure and are sworn for life to protect the confidentiality of the data. The penalty for unlawful disclosure is a fine of up to \$250,000 or imprisonment of up to 5 years, or both.

# Population Estimates

17

<https://www.census.gov/popest/data/>

## Population Estimates

### Current Estimates Data

The population and housing unit estimates are released on a flow basis throughout each year. Each new series of data (called vintages) incorporates the latest **administrative record data, geographic boundaries, and methodology**. Therefore, the **entire time series of estimates beginning with the most recent decennial census is revised annually, and estimates from different vintages of data may not be consistent across geography and characteristics detail**. When multiple vintages of data are available, the most recent vintage is the preferred data

# Census Works with States to Produce the Estimates

18

The Census Bureau begins the process of preparing population estimates by updating population information from the most recent census with information found in the annual administrative records of Federal and state agencies. The Federal agencies provide tax records, Medicare records and some vital statistics information. The FSCPE agencies supply vital statistics, and information about group quarters like college dorms or prisons. The Census Bureau and FSCPE members combine census and administrative records information to produce current population estimates consistent with the last decennial census counts. The Census estimates are sent to the FSCPE agencies for review and comment.

## The Economic Census

- Covers all non-farm businesses
- Only source on industry revenues (and other measures like sales, shipments, productivity of employees) that are comparable across industry and geographic areas / and over time
- Includes the number of locations, employment, payroll, total revenue, and product sales for every industry—plus over **150 detailed statistics** for various industries.
- Basis of Input-Output models created by Bureau of Economic Analysis for GDP

**Caveat** – although all businesses are covered the 2012 Census is most recent available .

The screenshot shows the American FactFinder Advanced Search Tool interface. At the top, there is a navigation bar with the United States Census Bureau logo and the text "AMERICAN FactFinder". The navigation bar includes links for "MAIN", "COMMUNITY FACTS", "GUIDED SEARCH", "ADVANCED SEARCH" (highlighted in orange), and "DOWNLOAD CENTER". On the right side of the navigation bar, there are links for "Feedback", "FAQs", "Glossary", and "Help".

Below the navigation bar, there is a search instruction: "Search - Use the options on the left (topics, geographies, ...) to narrow your search results".

On the left side, there is a "Your Selections" section with a blue header and a white body. It contains the text "Your Selections' is empty" and two links: "load search" and "save search". Below this, there is a section titled "Search using the options below:" with five expandable menu items: "Topics (age, income, year, dataset, ...)", "Geographies (states, counties, places, ...)", "Race and Ethnic Groups (race, ancestry, tribe)", "Industry Codes (NAICS industry, ...)", and "EEO Occupation Codes (executives, analysts, ...)".

In the center, there is a search form with the following fields and controls:

- Two input fields: "topic or table name" and "state, county or place (optional)".
- A "GO" button and a question mark icon.
- A row of radio buttons: "topics" (selected), "race/ancestry", "industries", and "occupations".

Below the search form, there is a section titled "To search for tables and other files in American FactFinder:" with three numbered steps:

- 1** Enter search terms and an optional geography and click GO
- 2** Next, select **Geographies** (states, counties, cities, towns, etc.)
  - these are added to 'Your Selections'
  - the Search Results are updated
- 3** Select one or more Search Results and click **View**

Between step 1 and step 2, there is a section titled "-- or --" with the text "Select from **Topics**, **Race and Ethnic Groups**, **Industry Codes**, **EEO Occupation Codes**." followed by a list of bullet points: "• these are added to 'Your Selections'" and "• the Search Results are updated".

Lets Try It: First, Choose Montana Using the Geographies Bar  
STEP ONE: Use Pull Down Menu to Find Geographic Type: STATE

The screenshot displays the American FactFinder Advanced Search Tool interface. On the left, a sidebar titled "Your Selections" shows that it is currently empty. Below this, there are four search options: "Topics", "Geographies", "Race and Ethnic Groups", and "Industry Codes". The "Geographies" option is selected, indicated by a downward arrow. The main area of the tool features a search bar with the instruction "Enter search terms and an optional geography and click GO". Below the search bar is a "Select Geographies" dialog box. This dialog box has four tabs: "List", "Name", "Address", and "Map". The "List" tab is active, showing a section titled "Select geographies to add to Your Selections" with a help icon. Underneath, there are two radio buttons: "most requested geographic types" (which is selected) and "all geographic types". Below the radio buttons is a dropdown menu labeled "Select a geographic type:" with the text "-- select a geographic type --". At the bottom of the dialog box, there is a note: "Didn't find your geographic type? Click the 'all geographic types' radio button above, or try the Name options instead."

Step TWO: Highlight Montana then hit ADD TO YOUR SELECTION

The screenshot displays the American FactFinder Advanced Search Tool interface. On the left, a sidebar contains navigation options: 'Your Selections' (empty), 'Search using the options below:', 'Topics' (age, income, year, dataset, ...), 'Geographies' (states, counties, places, ...), 'Race and Ethnic Groups' (race, ancestry, tribe), 'Industry Codes' (NAICS industry, ...), and 'EEO Occupation Codes' (executives, analysts, ...). The main area is titled 'To search for tables and other files in' and features a search input field. A 'Select Geographies' dialog box is open, showing a table with columns 'List', 'Name', 'Address', and 'Map'. The dialog prompts the user to 'Select geographies to add to Your Selections' and offers options to 'Select from: most requested geographic types' and 'Select a geographic type: State - 040'. A list of states is displayed, with 'Montana' highlighted. An 'ADD TO YOUR SELECTIONS' button is located at the bottom of the dialog.

On the left, the 'Your Selections' panel shows the search criteria: Dataset: 2014 ACS 1-year estimates and State: Montana. Below this, there are links for 'load search' and 'save search'. The 'Search using the options below:' section includes 'Topics (age, income, year, dataset, ...)' and 'Geographies (states, counties, places, ...)'. The main search results area at the top right indicates 'Search Results: 1-25 of 1,762 tables and other products match 'Your...'. A 'Select Topics' dialog box is open, titled 'Select Topics to add to 'Your Selections''. The dialog lists several topic categories with expandable options: 'People' (expanded) includes 'Basic Count/Estimate', 'Age & Sex', 'Age Group', 'Disability', 'Education' (expanded), and 'Employment'. The 'Education' category is further expanded to show 'Educational Attainment (62)', 'Field of Degree (14)', 'School Enrollment (36)', and 'School Type (5)'. A 'CLOSE X' button is visible in the top right corner of the dialog box.
