

Eastern Montana County Population Projections - Total Population, 2012 - 2035

Medium High Oil Production and High Oil Production figures were produced using the Montana

Department of Transportation's (MDT) total population projections for the entire 16 county region in eastern Montana based on analytical scenario analysis of potential future oil production in Montana and eREMI county level total population levels and growth trends over the period. In short, the figures represent the estimated projected population based on heightened levels of oil production in eastern Montana.

eREMI figures are a product of Regional Economic Models, Inc. (www.remi.com) and provide estimates of total projected population, at the county level, that coincide with MDT's estimates of projected population at low to moderate potential future oil production for the entire eastern Montana 16 county region.

Please refer to the methodological write-up, "Eastern Montana County Level Population Projections", available online at www.ceic.mt.gov for a complete description of the figures.
